## INTRODUCTION

This Report highlights the activities of the Transportation Professional Services Selection Board (TPSSB) during Fiscal Year 2006 in conjunction with the selection of consultants for Architectural/Engineering (A/E) projects processed through the TPSSB, for the Maryland Department of Transportation (Department), in conformance with applicable laws, regulations and internal guidelines.

The contents of this report have been organized under the following topical headings:

- Executive Summary
- Minority Business Participation
- Changes in Laws, Regulations, and Internal Guidelines
- TPSSB Membership and Composition
- Consultant Selections
- Certification for Consultant Services

Appropriate attachments have also been provided detailing Department Consultant Screening Committees and Negotiating Teams membership; consultant selections, including project & proposal data/time involved; projects certified by the Secretary of Transportation (Secretary) for consultant services for FY'06 and revisions to one (1) previously certified project for FY'06, six (6) projects for FY'05, one (1) project for FY'04, and one (1) project for FY'03.

## EXECUTIVE SUMMARY

The major facts and conclusions contained in this report are as follows:

1. The TPSSB finalized 85 consultant selections. The total fees for these 85 selections amounted to approximately \$221 Million.
2. Of the total 85 selections, all were in excess of \$200,000.00 and were based upon evaluation of technical proposals and negotiated prices.
3. The total time required to finalize selections on a negotiated basis averaged 16.3 months per selection, with 15.0 months consumed by Transportation Agencies and 1.3 months by the TPSSB. (These averages exclude major delays attributable to non-selection related matters.) This is an increase over Fiscal Year 2005 of 3.2 months per selection in time consumed by Transportation Agencies and 0.6 of a month for the time required by the TPSSB.

## MINORITY BUSINESS PARTICIPATION

Of the forty-two (42) firms recommended for award of a contract on eighty-five (85) projects in FY'06, four (4) were minority firms. Sixty-four (64) minority firms were utilized as subcontractors on these projects.

## CHANGES IN LAWS, REGULATIONS, & INTERNAL GUIDELINES

In Fiscal Year 2006, there were no changes in the State Law, the State Procurement Regulations (Regulations), or the Department A/E Consultant Selection Internal Guidelines (Guidelines).

## TPSSB MEMBERSHIP AND COMPOSITION

During Fiscal Year 2006, the membership and composition of the TPSSB was as follows:

### Permanent Members:

- William M. Corun, Chairman (Public Member) – resigned 3/14/06
- Francis W. Kuchta, Vice Chairman (Public Member) – Acting Chairman as of 4/6/06
- Robert L. Flanagan, Secretary (Ex-Officio)
- Mark A. Pemberton, Office of Engineering, Procurement & Emergency Services (OEPES), Secretary's Designee – transferred to BPW Office 3/14/06
- John M. Contestabile, (OEPES), Alternate Secretary's Designee
- Brian J. McAllister, (OEPES), Department Member
- John L. Gowland, (OEPES), Department Alternate Member

Temporary Members

The following Temporary Members represented their respective Transportation Agencies at various meetings:

State Highway Administration (SHA):	Robert Gay (Designee) Alan Gertner (Alternate Designee)
Maryland Aviation Administration (MAA):	Suzette Moore (Designee) Jackie Schonowski (Designee)
Mass Transit Administration (MTA):	Stephen V. Silva (Designee) Priscilla Jeffers (Designee) Vernon Hartsock (Alternate Designee)
Maryland Transportation Authority (MdTA):	Richard Pagano (Alternate Designee)

Executive Secretary

Dorothy E. Runkles

Assistance was rendered to the TPSSB through the following:

Office of General Counsel: (Secretary's Office)

Thomas G. Peter, Deputy General Counsel

Office of Consultant Services: (SHA)

Robert Gay, Chief & Staff

Various Consultant Screening Committees and Negotiating Teams of Transportation Agencies:

A list of membership to these Committees/Teams as of June 30, 2006, is provided as Attachment I.

## CONSULTANT SELECTIONS

During Fiscal Year 2006, the TPSSB met 12 times, and processed 85 selections on a negotiated basis involving 42 consultant firms. The total cost of the 85 finalized selections amounted to approximately \$221 Million.

Detailed information on the 85 finalized selections is provided as Attachments II - V. An analysis of the data on these Attachments, and other information available in TPSSB files, reveals the following:

1. Projects by Cost Categories:

Costs for each of the 85 selections for which consultants were selected on a negotiated basis ranged from approximately \$500,000.00 to \$12,000,000.00.

The following tabulation summarizes these selections by cost categories:

Cost Category \$	No. of Selections	% by No. of Selections	% by Cost of Selections
200,001 - 300,000	0	0%	0%
300,001 - 500,000	8	9.4%	1.8%
500,001 - 1,000,000	27	31.8%	12.2%
1,000,001 and over	50	58.8%	86.7%
Total	85	100.0%	100.0%

2. Selections by Technical Proposals/Negotiated Prices:

Eighty-five (85) selections were finalized based on evaluation of technical proposals and negotiated prices.

Negotiating Teams were able to negotiate a satisfactory contract with the top-ranked firms in all instances at a price, which they determined to be fair, competitive and reasonable.

There is a possibility that the TPSSB could consider a Transportation Agency's recommendation of the award of a contract to the second highest ranked firm. In addition, in cases where simultaneous negotiations with two or more firms for the awarding of identical open-end contracts from one reduced candidate list have not been satisfactory, the Transportation Agency may negotiate with, and recommend the award of a contract to, a lower ranked firm. Neither of these situations occurred

in FY'06.

3. Time Involved in Finalizing Selections:

Of the 85 selections which were finalized on a negotiated basis, the total time required for a selection ranged from 8.4 to 46.6 months, depending on the nature and complexity of the project, averaging 16.3 months per selection, excluding major delays attributable to non-selection related matters. This was measured from solicitation of interest from firms, to final approval by the TPSSB. Related actions occurring during this period were as follows:

An average of 15.0 months per selection was consumed by appropriate Transportation Agencies in making specific selection recommendations to the TPSSB. This covered time necessary for public announcements for solicitation of interest from firms, evaluation of candidate firms, any de-briefings of firms not on reduced candidate lists, preparation of requests for technical and price proposals, and evaluation of these proposals and price negotiations in order to make selection recommendations to the TPSSB.

An average of 1.3 months per selection was required for the TPSSB to review and finalize all selection recommendations made by Transportation Agencies, including waiting periods necessary for public announcements for TPSSB meetings, and any de-briefings through Transportation Agencies of firms not recommended for selection.

4. Inquiries and Briefs by Dissatisfied Consultants:

A total of 311 Expressions of Interest were received relating to the 85 finalized selections. A total of 140 inquiries were received from dissatisfied firms. Twenty-three (23) inquiries were due to non-placement on Reduced Candidate Lists, and one hundred seventeen (117) were due to non-recommendation for final selections. These inquiries were handled through appropriate Consultant Screening Committees. There were no briefs pre-filed with the TPSSB.

## CERTIFICATION FOR CONSULTANT SERVICES

During Fiscal Year 2006, the TPSSB received and recorded a total of fifty-eight (58) certifications by the Secretary involving A/E services, which at the time of certification could not feasibly or economically be provided through existing in-house resources, and appropriate Transportation Agencies were directed to proceed with the selection of consultants.

Detailed listings of such projects recorded by the TPSSB as certified by the Secretary are provided as Attachment VI.

## REVISION TO PREVIOUSLY CERTIFIED PROJECTS – FY'06, FY'05, FY'04, and FY'03:

Revisions were recorded by the Board to the following projects previously certified by the Secretary of Transportation:

- FY'06 - (#10) increasing the estimated cost of the contracts.
- FY'05 – (#14) increasing the estimated cost of the contracts.
- FY'05 – (#15) increasing the estimated cost of the contracts.
- FY'05 – (#20) increasing the estimated cost of the contracts.
- FY'05 – (#34) increasing the estimated cost of the contracts.
- FY'05 – (#35) increasing the estimated cost of the contracts.
- FY'05 – (#37) increasing the estimated cost of the contract.
- FY'04 – (#29) increasing the estimated cost of the contract.
- FY'03 – (#26) increasing the number of contracts and estimated cost of the contracts.

## PROJECTS WITHDRAWN FROM FURTHER CONSIDERATION

During fiscal year 2006, five (5) projects, which were previously recorded by the TPSSB as certified by the Secretary of Transportation, were withdrawn from further consideration.

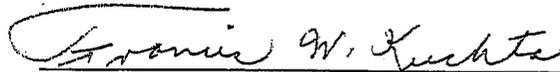

These revisions are provided as Attachment VIII.

WAIVER OF THE COMPETITIVE SELECTION PROCESS

During Fiscal Year 2006 a waiver was approved for the MTA to develop the Final Environmental Impact Statement (FEIS) for the Magnetic Levitation (Maglev) project.

Details on the waiver are provided as Attachment IX.

Report of Activities for Fiscal Year 2006 submitted and approved at the TPSSB meeting held on August 3, 2006.

Transportation Professional Services Selection Board

WAIVER OF SELECTION ON A COMPETITIVE BASIS

At the TPSSB meeting held on September 1, 2005, approval was given for MTA's request for waiver of selection on a competitive basis to develop the Final Environmental Impact Statement (FEIS) for the Magnetic Levitation (Maglev) project.

KCI Technologies, Inc., as a prime consultant, or as part of a joint venture effort with Parsons Brinckerhoff Quade & Douglas, Inc., has competitively participated in the A/E process and previously been selected for award of three MTA contracts for the Baltimore Washington Maglev studies, totaling \$13,000,000.00.

The Board determined that the project was of a complex nature carried out in phases, making it not feasible to continue subsequent phase with other than the first phase source. The Board approved the request for a waiver of the competitive selection process and approved the selection of KCI Technologies, Inc./Parsons Brinckerhoff Quade and Douglas, Inc., Joint Venture, to develop the FEIS for an amount not to exceed \$1,000,000.00.
